KECUDO

HIGH SCHOOL BIOLOGY

The Complete Series

All six classes · Premium Edition

6 books · **78** chapters · **150** quiz questions · **222** PDF pages · **153** diagrams & charts · **+1** bonus cheat sheet

2026 EDITION · SCIENCE SERIES

EDITION

HIGH SCHOOL BIOLOGY

Class 1

Cells & the Chemistry of Life

From atoms to dividing cells — with lab data, worked examples and a 25-question self-assessment

2026 EDITION · SCIENCE SERIES

Contents

PART I · FOUNDATIONS

1 What Is Life? 4

2 Thinking Like a Scientist 6

3 Atoms, Water & pH 8

4 The Molecules of Life 10

5 Enzymes 12

PART II · CORE

6 Cell Theory & the Microscope 14

7 Prokaryotes vs Eukaryotes 16

8 Organelles: the Cell Factory 18

9 Membranes & Transport 20

10 Why Cells Stay Small 22

PART III · ADVANCED

11 Photosynthesis 24

12 Cellular Respiration 26

13 The Cell Cycle & Mitosis 28

SELF-ASSESSMENT

Q 25 questions in five parts 30

KECUDO

II
EDITION

HIGH SCHOOL BIOLOGY

Class 2

Genetics & Heredity

From DNA to traits — Mendel's peas, Punnett squares, protein synthesis and mutations, with a 25-question self-assessment

2026 EDITION · SCIENCE SERIES

Contents

PART I · FOUNDATIONS

1 DNA: the Molecule of Heredity 4

2 Genes, Chromosomes & the Genome 6

3 DNA Replication 8

4 Meiosis 10

5 Mendel's Laws 12

PART II · CORE

6 Punnett Squares & Probability 14

7 Dihybrid Crosses 16

8 Beyond Mendel 18

9 Sex-Linked Traits & Pedigrees 20

10 The Chi-Square Test 22

PART III · ADVANCED

11 Transcription 24

12 Translation & the Genetic Code 26

13 Mutations & Genetic Technology 28

SELF-ASSESSMENT

Q 25 questions in five parts 30

KECUDO

III
EDITION

HIGH SCHOOL BIOLOGY

Class 3

Evolution & Biodiversity

Darwin’s idea and the evidence for it — natural selection, population genetics, new species and the history of life, with a 25-question self-assessment

2026 EDITION · SCIENCE SERIES

Contents

PART I · FOUNDATIONS

1 The Evidence for Evolution 4

2 Darwin & Natural Selection 6

3 Adaptations 8

4 Classifying Life 10

5 The Tree of Life 12

PART II · CORE

6 Population Genetics 14

7 Mechanisms of Evolution 16

8 How New Species Form 18

9 Patterns of Evolution 20

10 Evolution in Action: Resistance 22

PART III · ADVANCED

11 The History of Life 24

12 Origins: Life and Humans 26

13 Biodiversity & Extinction 28

SELF-ASSESSMENT

Q 25 questions in five parts 30

EDITION

HIGH SCHOOL BIOLOGY

Class 4

Human Body Systems

How your organs work together — heart, lungs, nerves, hormones and immunity, with a 25-question self-assessment

2026 EDITION · SCIENCE SERIES

Contents

PART I · FOUNDATIONS

1 Organisation & Homeostasis 4

2 Bones & Muscles 6

3 The Digestive System 8

4 The Circulatory System 10

5 The Respiratory System 12

PART II · CORE

6 The Excretory System 14

7 The Nervous System 16

8 The Endocrine System 18

9 The Immune System 20

10 Reproduction & Development 22

PART III · ADVANCED

11 Neurons & the Action Potential 24

12 Blood Sugar & Diabetes 26

13 Disease, Vaccines & Herd Immunity 28

SELF-ASSESSMENT

Q 25 questions in five parts 30

EDITION

HIGH SCHOOL BIOLOGY

Class 5

Ecology & Ecosystems

Energy, cycles, populations and our changing planet — with field methods, real climate data and a 25-question self-assessment

2026 EDITION · SCIENCE SERIES

Contents

PART I · FOUNDATIONS

1 What Is Ecology? 4

2 Energy Flow 6

3 Cycles of Matter 8

4 Biomes 10

5 Population Growth 12

PART II · CORE

6 Measuring Populations 14

7 Community Interactions 16

8 Ecological Succession 18

9 Biodiversity & Ecosystem Services 20

10 Human Population 22

PART III · ADVANCED

11 Climate Change & the Carbon Cycle 24

12 Pollution & Eutrophication 26

13 Conservation & Sustainability 28

SELF-ASSESSMENT

Q 25 questions in five parts 30

VI
EDITION

HIGH SCHOOL BIOLOGY

Class 6

Plant Biology

Roots, leaves, transport, flowers and seeds — how plants grow, reproduce and feed the world, with a 25-question self-assessment

2026 EDITION · SCIENCE SERIES

Contents

PART I · FOUNDATIONS

1 What Makes a Plant? 4

2 Plant Diversity 6

3 Roots, Stems & Leaves 8

4 Leaves & Gas Exchange 10

5 Transport in Plants 12

PART II · CORE

6 Transpiration 14

7 Flowers & Pollination 16

8 Seeds & Germination 18

9 Plant Hormones & Tropisms 20

10 Plant Life Cycles 22

PART III · ADVANCED

11 Photosynthesis in Depth 24

12 Plant Nutrition & Soil 26

13 Plants & People 28

SELF-ASSESSMENT

Q 25 questions in five parts 30
